with the phrase under consideration. But Cyprian, the marter, who wrote in the third century, supplies us with something very definite. In his discourse "On Mor tality" Cyprian speaks in this language. "Our brethren should not be bewailed when by the summons of the Lord they are delivered from this world, for I know they are not lost but sent before (non eas agaitti, aid pramitti), it at when they retire they precede (or go before), so that they ought to be longed after as those who is on a journey or a voyage, and not lamented" He adds what might serve as a motto for the Funeral Roform Association, "that black garments should not be put on here when they have already put an white robest there," It will be seen a glance that our common saying is simost an exact ren lering of the words of Cyprian, and to him we should not heestate to ascribe the expression.

Nephew of Henry Ward Beecher Goes Under-George 1. Seney's Failure Most Complete.

CONFIDENCE RESTORED.

New York, May 19. - Saturday morning passed very quietly and confidence seemed fully restored. Affairs progressed in a fair way toward the speedy recovery of values in stocks. There was no crowd at Russell Sage's office. Sage had paid out over \$3,they will stand. The banks now hold \$3, 127,025 in excess of legal requirements. Money was decidedly easy during the day and the banks were more liberal to borrow-

ers.
C. McCutloch, Beechor & Co., shipping and commission merchants and bankers, suspended Saturday and made a general assignment. The bead of the firm is a nephew of Henry Ward Beecher. The firm was started in March, 1872, and had been engaged in shipping general merchandise to Brazil, and made large importations of coftee. They also advanced on consignments and did a general banking business. The liabilities were not definitely known, but were estimated at from \$250,000 to \$500,000, William Pinkney, doing business as Bonner & Pinkney, shipping and commission, also mutated as second of the second made an assignment, giving \$22,300 preferences. His fiabilities are estimated at about The immediate cause of the stoo, oos. The inmediate cause of the failure was the collapse of the Marine Bank, with which Pinkney had his account. Two other small failures were reported, but none of the four caused the slightest flurry. George I. Seney's failure is supposed to be total. He has deeded his Brooklyn residence. dence, formerly owned by J. S. Rockwell, and one of the finest on Brooklyn Heights, to the Methopolitan Bank for \$175,000. His former kome in Hemsen street was also deeded to the new President of the Metropolitan, the consideration being \$80,000. Donneil has siready given up five hundred thousand doltars. He will not re-enter business. Simpson has surrendered his house at Orange, which shood in his wife's name. Chanceltor Renyon, of New Jersey, said Saturday night that in a tew days a dividual of possibly fifty per cent would be declined to say whether any of the bank officers would be arrested, but declared the bank would close up, no matter how good a bank would close up, no matter how good a showing it might make. Several of the bank managers insisted that they did not know that the bank's funds were kept in New York. Others declared that Fisk

Washington, May 19. - The Treasure: of the United States has forwarded \$5,000,-000 in legal-tenders to the Assistant Treasarer at New York for use in case of neces-

sity.

Lospon, May 18.—There was a rush here Saturday to buy American stocks. Bankers are cabling to New York affering to ship gold on security of Covernment.

The News says: The American Treasury, which is the ultimate holder of the Amer lean reserve, is well supplied with cash. This ought to check a panie. All accounts show that millions of English money is being thrown into American stocks. During three days inconceivably large purchases have been made through brokers. Capitalists have bought great blucks of American stocks, and inmonerable small investors have made hmited purchases. Other securities are somewhat depressed, because so many people are anxious to realize in order to exchange for American stocks.

Whatever views they may take of the future, all the London financiers express admiration at the resources displayed in the crisis itself. "What other country," cried a leading banker, "could put up millions at a moment's notice? Why, sir, it would stagger the Rothchilds."

CIGAR-MAKERS' TROUBLES.

Straiton & Storm's eigar factory has been declared off by Cigar-makers' Progressive Union No. 1, and sixty of the 1,200 eightmakers who went on strike have returned to work after an idleness of nearly four months, which cost the unions \$18,000. The union secretary says that under the scale of prices which the men now receive from Straiton & Storms, their aver age earnings are not over eight dollars a week. At this rate the loss to the strikers in wages has been in the neighborhood of m wages has been in the heightorhood of \$150,000. A resolution was passed attributing the failure of the strike to the action of the International Union in refusing to sustain the strike and furnishing the firm with hands to take the phress of the strikers. The union had come to the conclusion that the strike was hapeless, and that it was a needes expenditions of pages. conclusion that the strike was impelese, and that it was a useless expenditure of money to continue it any longer. As many of the men as could would go back to Straiton & Storm's, a number of them had already got work in other factories, and those that were left would very soon be placed.

their hands Saturday and closed their fac-tory. This action grew out of a difficulty with members of the International Union of Cigar-Makers, who demanded more pay for a certain grade of cigars, which the farm declined to give. The firm state that they resorted to this means to get rid of union workmen. About three hundred. fifty men are thus made idle.

A JUVENILE STRIKE FAILS. Youthful Conductors of Cincinnati Street Cars Leave Their Posts for a Raise in

HALL'S

Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first suc-cessful restorer of faded or gray hair to its natural color, growth, and youthful beauty, It has had many imitators, but none have sa fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR BENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one

cause: the entere fulfilment of its promises. The proprietors have often been surprised at the receipt of orders from remote comtries, where they had never made an effort for it introduction. The use for a short time of HALL'S HAIR

RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humars, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and embles them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.
